

# Daisies and Roses

## With Cherryl Meggs

On the left you can see my inspiration photo for the daisies in the painting below Use Soft Pink , Deep Blue Green and Mixing Yellow to Block in the petals. Center is Mixing Yellow and Yellow Red. Lightly blend the colors on the petals. Soften center and use wedge end of wipe tool and knock out the uneven edges next to petals.

White Rose is blocked in with same colors.. The light pink roses are Soft Pink And Soft Rose. Dark rose is Ruby.

After firing the first fire. You can simplify by only painting the flowers and no leaves . You can tint the background with Mixing Yellow , Soft Pink, and Deep Blue Green . Make uneven shapes of these colors and then lightly blend. Finish flowers first and then tint the background.
